

## CITY OF LODI

## COUNCIL COMMUNICATION

**AGENDA TITLE:** Plans and Specifications and Advertisement for Bids for Traffic Signal and Lighting Installation, Highway 12 (Kettleman Lane) and Central Avenue, and Turner Road and Stockton Street/Miwok Drive

**MEETING DATE:** April 21, 1993

**PREPARED BY:** Public Works Director

**RECOMMENDED ACTION:** That the City Council approve the plans and specifications for the above project and authorize advertising for bids.

**BACKGROUND INFORMATION:** This project is to install traffic signals at the intersection of Highway 12 (Kettleman Lane) and Central Avenue, and Turner Road and Stockton Street/Miwok Drive. Both intersections meet Caltrans signal warrants and are being funded with Federal funds and Street Development Impact Mitigation Fees.

Many years ago, the City Council approved standardizing the signal controllers. The controller is the computer that operates the signal timing. The current vendor has changed ownership many times over the years and the City is not receiving the support needed to maintain and operate the signals. Due to this poor service, staff recommends changing to another vendor. Sometime in the near future, staff will be recommending standardizing on controllers.

**FUNDING:** Originally Budgeted: 1992/93  
Budgeted Fund: Street Impact Mitigation Fee and Intermodal Surface Transportation Efficiency Act (ISTEA)  
Current Appropriation: \$216,000  
Total Project Estimate: \$204,000

  
Jack L. Ronsko  
Public Works Director
